ORO VERDE LIMITED (ASX: OVL)

Nicaragua – An Emerging Gold District

RIU Sydney Resources Roundup
May 2016
Gold projects in Nicaragua

1. **Topacio Gold Project**
   - Historical 340,000 oz high grade gold resource
   - US$7.9 million *farm-in agreement with NEWCREST* signed in November 2015
   - Stage 1 exploration program commenced in January 2016

2. **San Isidro Gold Project**
   - Early stage gold project
   - Adjacent to 2.3 Moz La India Au project

3. **New Projects**
   - Quality gold and copper projects are currently being sought in the region

- David Turner: Country Manager - geologist with >20 years Central American experience
- Jacques Levy: Legal Representative- local businessman
Nicaragua Snapshot

**Location:** Between Honduras & Costa Rica

**Area:** 130,000km² (50% > Tasmania)

**Capital:** Managua

**Access:** Direct flights from 4 US ports

**Languages:** Spanish, English & Indigenous

**Stable currency:** 5% pa devaluation vs USD

**Single title type:** Mining concession

- Valid for 25 years with 25 year extension

**Mining royalty:** 3%

*Government encouraging investment in mining*

Data provided by ProNicaragua
Why explore in Central America?

- Central America has an excellent gold, silver and copper production record
- Overall Central American mineral production:
  - Gold: 34 million ounces
  - Silver: 276 million ounces
  - Copper: 15 million tonnes
- Nicaragua has a strong gold mining history – 14 Moz produced to date
- Four multi-million oz gold mining districts identified to date in Nicaragua
Major Gold Centres of Nicaragua
- a low cost jurisdiction

La India: 2.9 Moz
Condor Gold plc
2.3 Moz resource
Positive PFS (Dec ‘14)

TOPACIO GOLD PROJECT
Oro Verde & Newcrest
(earning)
340,000 oz Au resource
Targeting >2 Moz Au

Data from Company Reports
Topacio Gold Project

- OVL option to acquire 100%

- 2.7 million tonnes at 3.9g/t Au (340,000 oz Au) - Inferred Mineral Resource (NI 43-101)

- This is a foreign estimate and is not reported in accordance with the JORC Code. A Competent Person has not done sufficient work to classify the estimate as mineral resource in accordance with the JORC Code. It is uncertain that following evaluation and further exploration work that the estimates will be able to be reported as mineral resources in accordance with the JORC Code.

- Option to Purchase Agreement commenced in February 2015
- 15 months into the 3 year Option Agreement
- Very attractive option conditions for a 340,000oz resource with excellent upside:
  - US$2m spend over 3 years
  - 6 x US$40,000 payments each 6 months to Vendor
  - US$1.5m to acquire 100%
  - Plus either  i) 2% royalty, or
  ii) US$1/oz Au (in measured and indicated resources)
Topacio Gold Project
- Good Access

- Located in the southeast of Nicaragua, just 200km from Managua
- Adjacent to the regional sealed highway
Topacio Gold Project
- Under-explored

- A 93 km² concession in cattle farming country

- Sealed highway runs just north of the concession

- 340,000koz gold resource covers just 5% of the 93km sq. project area

For personal use only
Topacio Gold Project

- New targets defined in 2015

Successful surface sampling by OVL in 2015 outlined numerous high grade mineralised target areas outside the resource area

Best OVL surface sampling results 2015

- Chicago: 23.8 g/t Au and 41 g/t Ag
- Dispute: 92.9 g/t Au and 220 g/t Ag
- Dos Amigos: 38.5 g/t Au and 39 g/t Ag
- West Mico: 23.9 g/t Au and 26 g/t Ag
- Celedonio: 12.5 g/t Au and 65 g/t Ag
- Topacio: 12.3 g/t Au and 101 g/t Ag
- Topacio NE: 52.4 g/t Au and 158 g/t Ag
- Su Majestad: 14.1 g/t Au and 58 g/t Ag
- Buena Vista: 3.35 g/t Au and 50 g/t Ag
- Rebeca: 2.54 g/t Au and 14 g/t Ag
- Gallina: 6.49 g/t Au and 1 g/t Ag

* = New Targets

Buena Vista stockwork target 6km from Topacio

Refer to ASX announcements
Topacio Gold Project
- Newcrest (NCM) farm-in agreement*

- NCM signed farm-in agreement with OVL in November 2015
- To discover multi-million ounce gold deposits
- NCM may sole fund **US$4.4 million to earn 51%**
  - minimum commitment of US$0.5m in Year 1
  - includes the cost of exercising Oro Verde’s Option
- NCM may sole fund another **US$3.5 million to reach 75%**
  - US$3.5 million expenditure over the following three years
  - for a total commitment of US$7.9 million over ~5 years
- Oro Verde is managing the exploration during the farm-in period

*Refer ASX release dated 30 November 2015
Topacio Gold Project
- Aggressive exploration commenced

Objective To Outline >2 Moz Gold Resource

- Requires investigation of entire concession
- Stage 1 exploration commenced January 2016
- **Geology:** detailed mapping and sampling
- **Geochemistry:** concession-wide grid soil sampling (multi-element)
- **Geophysics:** airborne magnetics and radiometrics
- Define extent of the system and drill test priority targets

For personal use only

For personal use only
New Exploration Targets (May ‘16)

- Investigate Low Sulphidation Epithermal Potential – Soil Sampling
- Vein Assessment – Trenching on 50m intervals to define vein widths & assess marginal stockwork potential
- Investigate Concealed LS / IS Epithermal Potential
- Investigate High Sulphidation & Porphyry Potential
- Vein Prospecting

Minera San Cristobal, S.A.  
Topacio Project  
Geological Sketch Map  
Exploration Target Summary
Stage 1 Exploration (Year 1)

Geological consultant has identified preliminary target zones:

1. Expansion of resource area – only ~4km of the 35km mapped veins are included in existing resource estimate

2. Low sulphidation epithermal vein potential at:
   - West Topacio
   - El Sahino
   - Buena Vista

3. High sulphidation and porphyry potential at:
   - La Plazuela

Upcoming activities and news flow:

- Soil sampling program nearing completion (400m x 400m grid)
- Planning for airborne geophysical survey well advanced
- Interpretation of results and drill target prioritisation to follow
- Stage 2 – drilling of priority targets (subject to NCM progress)
Topacio Gold Project

- cavity filling gold!

- **Forward Looking Statements** - This report contains forecasts, projections and forward looking information. Such forecasts, projections and information are not a guarantee of future performance and involve unknown risks and uncertainties, many of which are out of Oro Verde’s control. Actual results and developments will almost certainly differ materially from those expressed or implied. Oro Verde has not audited or investigated the accuracy or completeness of the information, statements and opinions contained in this presentation. To the maximum extent permitted by applicable laws, Oro Verde makes no representation and can give no assurance, guarantee or warranty, express or implied, as to, and takes no responsibility and assumes no liability for (1) the authenticity, validity, accuracy, suitability or completeness of, or any errors in or omission from, any information, statement or opinion contained in this report and (2) without prejudice to the generality of the foregoing, the achievement or accuracy of any forecasts, projections or other forward looking information contained or referred to in this report.

- **Disclaimer** - This presentation has been prepared by Oro Verde Limited (“OVL” or the “Company”). It should not be considered as an offer or invitation to subscribe for, or purchase any, securities in the Company or as an inducement to make an offer or invitation with respect to those securities. No agreement to subscribe for securities in the Company will be entered into on the basis of this presentation. Throughout this presentation all figures are quoted in A$ dollars unless otherwise stated. You should not act in reliance on this presentation material. This overview of the Company does not purport to be all inclusive or to contain all information which its recipients may require in order to make an informed assessment of Oro Verde’s prospects. You should conduct your own investigation and perform your own analysis in order to satisfy yourself as to the accuracy and completeness of the information, statements and opinions contained in this presentation before making any investment decision.

1. The information in this document that relates to Foreign Mineral Resource Estimates is extracted from the report entitled “High Grade Gold Project Acquired” created on 11 November 2014 and available to view on www.asx.com. The Company confirms that it is not in possession of any new information or data relating to the foreign estimates that materially impacts on the reliability of the estimates or the Company’s ability to verify them as mineral resources in accordance with the JORC Code. The information included in the original market announcement continues to apply and has not materially changed. This is a foreign estimate and is not reported in accordance with the JORC Code. A Competent Person has not done sufficient work to classify the estimate as mineral resource in accordance with the JORC Code. It is uncertain that following evaluation and further exploration work that the estimates will be able to be reported as mineral resources in accordance with the JORC Code.

2. The information in this document that relates to Exploration Results is extracted from the following reports: “Expanded Gold Resource Potential” created on 9 November 2015 and “New Gold Targets Identified at Topacio” created on 2 May 2016; all completed under Mr Trevor Woolfe as Competent Person and available to view on www.asx.com. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original market announcements.
